

auth you get

now does it provide value

- know who's in a meeting
- from far away know if the room is avail ad hoc
- reserve a room ad hoc
- 

not avail

is either guy or red <=> easy to see room distance?

what's immediately important?

- is it available
- when is it available
- how long do we have
- who can I contact for emergency
- what resources are in the room?

what should someone enter to reserve?

- auto complete initials
- first two letters of first/last
